

GROUPS

Being on the field we have a wide and deep knowledge of our country. We know all what special and unusual it can offer.

Therefore we can create original **tailor made programme** for groups of different size.

Authenticity, Originality, Taking care of details, Flexibility and Transparency are our guiding lines as well as the reason of our long established good reputation .

CULINARY

Italian cuisine is a kaleidoscope of **regional** cuisines.

The culinary encounter with an Italian region goes with the discovery of its traditions and history.

Food shopping in a local market, cooking lesson and cooking competition, truffle hunting and tasting, visit of wine cellars and wine tasting, visit of cheese makers or olive oil makers are some of the activities that we propose.

ACTIVE

Sharing active experiences get people closer to each other. **Active** experiences make a travel unforgettable.

We combine our tour by Vespa and Fiat 500 Cabrio with other activities such as:

Water sports, canoeing, net fishing, horse trekking, hiking, biking, old timers, hot air balloon, helicopters, treasure hunting and orienteering, or with culinary and cultural activities to make varied and intensive programmes which especially fit **Incentive Groups**.

CULTURAL

We organise cultural tours by coach all over Italy with all inclusive programme (guides, museum entry fee, lunches, dinners, coach).

Thanks to our knowledge of the country we can create tailor made themed programmes (Italian gardens, Italian Villas, Italian Baroque, Etruscans, Roman archaeology, Classic music and opera, Slow food Presidia, Italian Design etc...)
